SPRING HAS SPRUNG & THAT'S NO JOKE!

As April dawns upon us, the Health Sciences Student Council is happy to share with you our 4th edition of our newsletter and proudly recognizes this month as National Minority Health Month (NMHM), a time dedicated to spotlighting unique health challenges faced by racial and ethnic minority communities. In acknowledging these disparities, we emphasize the critical role of interprofessional collaboration in addressing systemic inequities and promoting health equity. By bringing together healthcare professionals, researchers, policymakers, and community advocates, we can develop comprehensive strategies that address these multifaceted array of health disparities. Let us unite in our commitment to advancing health equity and inclusivity to uplift the well-being of all individuals, regardless of race or ethnicity.

HSSC UPDATES

North Campus Food Pantry Donations

- The HSSC North Campus Student Food Pantry was officially opened January 2023.
- The pantry is in the Domenici Student Lounge and is available to all students 24/7 with badge access. The pantry is stocked with non-perishable food items and basic hygiene products. We ask that students use the anonymous QR code tracking system to track what items are most utilized, what is still needed, and to leave feedback.
- There are donation boxes located throughout the HSC Campus where anyone can donate non-perishable food items and hygiene products. These boxes are monitored by the HSSC and will be checked regularly.
- Some of the most requested items for the pantry include:
 - *Canned tuna, chicken, and spam*
 - *Peanut butter*
 - *Rice*
 - *Pasta*
 - *Pasta Sauce*
 - *Microwavable Ramen*
 - *Microwavable Mac & Cheese*
 - *Individual crackers, chips, or cookies*
 - *Protein bars*
 - *Oatmeal packs*
 - *Breakfast Bars*
 - *Hygiene Items*
- **Donations**
 - We are pleased to accept one-time or recurring monetary donations through the UNM Foundation by searching for the "Health Sciences Student Council Initiatives (203571)".

Climate Change & the Otolaryngologist

Featuring Duncan A. Meiklejohn, MD

Thursday, April 11, 2024 | 6 P.M.

Domenici NW Room TBD | Informative Credit

This is an opportunity to hear stories from a UNMH surgeon on how he is working toward a more just and sustainable future for health care and patient care in New Mexico.

Dr. Meiklejohn is an Associate Professor of Otolaryngology-Head and Neck Surgery at the University of New Mexico. He completed his M.D. from Geisel School of Medicine at Dartmouth University and residency training at Stanford Hospital and Clinics, and has been on the faculty of the University of New Mexico since, where he is the residency program director and the head of General Otolaryngology. He has numerous awards for teaching and education, including winning the UNM Award for Excellence in Medical Student Education for the last six consecutive years. He has served on the American Academy of Otolaryngology-Head and Neck Surgery Socioeconomic and Grassroots Committee, is a past president of the New Mexico Society of Otolaryngology, and is a founding member of the new American Academy of Otolaryngology-Head and Neck Surgery Environmental Sustainability Task Force. His research activities focus on environmental impacts and sustainability in medicine and surgery.

2024 Lobo Hackathon

When: **Thursday, April 11, 2024 from 6:00 PM - 9:00 PM & Friday, April 12, 2024 from 8:00 AM - 7:00 PM**

Where: **Lobo Rainforest Building (101 Broadway Blvd. NE, Albuquerque, NM 87110)**

- The Lobo Hackathon is an opportunity for people to come together to intensely focus and collaborate on improving or creating an idea. Teams can build or refine an idea that sets out to address a problem, utilize a technology, or create something new!
- Collaborate on a team or join us for the final pitches where teams will present their ideas to a panel of judges for the chance to win cash prizes! ***The top prize is \$5,000!***
- Open to students, faculty, staff, entrepreneurs, and others in the community. All disciplines are invited to participate. No experience is necessary
- We provide the food and support, you provide the solutions!
- Earn UNM Credit
 - Participate in the Lobo Hackathon and learn the basics of entrepreneurship while earning credit! The elective course (Spring 2024 - begins March 18) will help prepare students to participate in the Lobo Hackathon. All majors welcome, students not admitted to Anderson will need a program override.
- Interested in Mentoring?
 - Mentors and skilled experts from all disciplines are welcome. Mentors can assist teams with their subject matter expertise and experience while enhancing their own skills as leaders, educators, and communicators by guiding rising talent.

Student Public Health Project Showcase

Presented by the students in PHRM 704: Public Health and the Pharmacist, Spring Semester 2024

**IPE
HONORS
CREDIT**

Interactive Credit for IPE Honors Students

This 50-minute Zoom event provides a forum for Interprofessional Education students and faculty to hear student proposals that are being developed in a College of Pharmacy course to address public health issues in New Mexico. The proposal projects require students to develop mock grant proposals to address health disparities and promote health equity in New Mexico communities.

This fast-paced format will feature brief presentations on either a program, research study or policy initiative under the domains of: Health Literacy, Resources, and Screening.

The Showcase is offered on Zoom over two days.

ACOG Medical Student Scholarship Application

2024 ACOG Annual Clinical and Scientific Meeting

[LEARN MORE ABOUT SCHOLARSHIP HERE](#)

CONTACT FOR SCHOLARSHIP SUBMISSION:
DR. HENRIE MEGAN,
HENRIEMEGAN@GMAIL.COM

San Francisco, CA | May 17-19, 2023

Medical Students with a strong interest in Obstetrics & Gynecology are invited to apply for a scholarship to participate in the ACOG Annual Meeting (<https://annualmeeting.acog.org/>)

Scholarship recipients are expected to attend the majority of the conference sessions and to present at the section ACOG business meeting in Albuquerque (October 2024) about their experience.

Scholarship recipients will receive up to \$1,500 for registration, travel, lodging and food. Please verify that your schedule will allow you to be excused from your clinical service or classes to attend the conference.

Awardees will also be expected to write a thank you letter addressed to the NM Section for the funding. Acceptance of funding and submission of the thank you letter will constitute permission to publish the complete letter or select quotations from the letter in an ACOG New Mexico Section newsletter.

Name:

Medical School:

Expected Year of Graduation:

How will you use the conference information to enhance your future career choice and practice?

(250 word limit)

Please include your name in the file name you send

Please email your **scholarship application and a current CV** to the ACOG New Mexico Section Secretary, Dr. Megan Henrie at henriemegan@gmail.com by **March 4th, 2024**

The ACOG New Mexico Section Executive Committee will review applications and notify interested students within two weeks of the application deadline.

New Mexico Clinical Education Program (ClinEd)

[APPLY FOR 2024 CLINED HERE](#)

[LEARN MORE INFORMATION ABOUT CLINED HERE](#)

The graphic features a background image of two healthcare professionals in a clinical setting. In the top left corner is the UNM Health Sciences logo with the text 'OFFICE FOR DIVERSITY, EQUITY & INCLUSION'. In the top right corner is the 'COMMUNITIES to CAREERS' logo. The main text reads: 'Need clinical experience? New Mexico Clinical Education Program (ClinEd) June 3- July 12, 2024'.

The ClinEd Experience

- Gain clinical experience working with rural or underserved populations
- Learn how to identify and assess social determinants of health and health disparities in communities
- Be more familiar with community-based research and community engagement practices and techniques
- Be more confident in your readiness to apply to your program
- Increase awareness of the urgent need for healthcare providers in our state.

Activities may include:

- Clinical shadowing in rural and/or underserved areas in NM. (dependent on COVID-19 restrictions)
- Exposure to telehealth models of care
- Research experience and community project development
- Session on Cultural Humility
- Enhance clinical skills

Eligibility

- Must be a New Mexico resident, or Navajo Nation resident **(for payment purposes only)**
- Be currently enrolled as a junior, senior, or college graduate (Nursing Students: Rising sophomores are eligible)
- Have a 2.75 GPA or higher

Stipend upon completion of the program

CONCEPTS IN CLIMATE CHANGE & PUBLIC HEALTH PREPAREDNESS

Summer 2024: June 3rd - July 30th
1-4 Variable Credit Undergrad/Grad Elective - Online

[Click here to learn how to change credit hours](#)

IPEP 305-001 | Undergraduates | CRN: 30323

IPEP 505-001 | Graduates | CRN: 30324

ABOUT THE COURSE

Concepts in Climate Change and Public Health Preparedness is an Undergraduate/Graduate variable credit elective course which integrates the conceptual foundations of public health preparedness and topics in climate change and health. This course examines the impacts of climate change on human health and ecological systems and provides an overview of climate change science as well as disaster prediction and preparation/mitigation science. Students will gain knowledge of the expected effects of climate change on regional, national and global populations and will explore strategies that health professionals and community planners can use with populations in their care. Students will focus on the adverse impacts of climate change on New Mexico and surrounding regions and will explore strategies to reduce the adverse impacts that climate change has and will have on our communities. Students will also have an opportunity to explore how they "fit in" to the work that lies ahead in this field and find ways to engage in communities of action/planning/policy and advocacy. Students will also engage in discussions and readings that envision a healthy and sustainable future for planetary and human health. This is an interdisciplinary course, so students will have the opportunity to study the work of community organizers, prevention and policy leaders, the emergency response system and health and environmental health work in education, adaptation, mitigation and resilience.

STUDENT OPPORTUNITIES

Colorado Pragmatic Research Program

When: **Wednesday, June 6, 2024 - Thursday, June 7, 2024**

Where: **Virtual**

- ACCORDS Education is back with its annual Colorado Pragmatic Research in Health Conference (COPRH Con)! COPRH Con 2024 will be a primarily virtual conference.
- This format allows for remote connections for all conference sessions: keynote and plenary addresses, panel discussions, concurrent breakout sessions, poster presentations, as well as networking opportunities and consultations. We will use the AirMeet platform to facilitate this.
- Additional in-person opportunities will be incorporated for networking, such as an opening keynote breakfast or a closing conference social, or “watch party” rooms for groups to attend some virtual sessions together.
- Attendees will hear from national experts in pragmatic research for three days of keynote and plenary addresses, networking, and break into concurrent sessions for more interactive participation. Additionally, registered participants have the opportunity to apply for a consultation with a project of their own or submit an abstract for our thematic poster sessions.

We strive to provide harm reduction materials, education, and support focused on the needs of DIY showgoers and their loved ones. At the forefront of our vision is the belief that everyone deserves access to support and that everyone has the right to make their own decisions with dignity.

We exist because we hope that someday, Narcan, harm reduction supplies, and harm reduction education is in the pocket of every Albuquerque chain, egg, and crust punk, every goth, every raver, every emo, every hardcore dude/dudette/dude-they, and also in the pocket of everyone who loves and/or knows anyone in the DIY music scene. Overdose deaths are 100% preventable, and we want to prevent every last one in the Albuquerque music scene, one show at a time.

We are a completely volunteer-run organization, and we'd love to have you on our team!

EXECUTIVE IPE Honors credit available for those interested in serving on an ABQ PSI committee or leadership role.

Get SMAHRT About Street Medicine

- The newly formed Street Medicine, Addiction, and Harm Reduction Team (SMAHRT) held its first general meeting on Tuesday, January 30, 2024.
- Co-chairs Morgan Stein and Jenna Norton, both first year med students, come from a strong foundation of work and service in the field. Previously, Norton was a social worker in street medicine and substance use, while Stein volunteers at the Healthcare for the Homeless clean needle exchange.
- Norton states, “We’re trying to uphold the values and principles of those who’ve come before us and set a precedent for allied health students to learn about this incredible work.
- The huge interest in this group proves what we always knew: that students desire more training and exposure to the social problems and challenges in New Mexico communities.”
- With the oversight of Lindsay Fox, PA-C and Sara Doorley, MD, the SMAHRT team intends to expand its work like similar programs throughout the country.
- Stein adds, “So many other medical and nursing schools embrace street medicine and harm reduction programs. We want to be part of that culture of innovation and transformative disruption.”

UNM HSLIC: Menstrual Products Available on North Campus

In an effort to increase [menstrual equity](#) on campus, the Health Sciences Library & Informatics Center Justice, Equity, and Inclusion Committee supplies free menstrual products in the library. Products can be found in all our women's and men's restrooms, and will be available soon in our new gender neutral/ADA accessible restroom.

These products are available in the men's restrooms to support people who menstruate, regardless of their gender identity. Trans, nonbinary, and gender non-conforming members of the HSC community deserve to feel supported and have access to these products. If you do not need these products, please be kind and leave them for someone who does. If you know someone who is having trouble affording menstrual products, please feel free to take the products and support those around you.

To learn more about menstrual equity and period poverty, explore these articles from the [ACLU](#), [NBC News](#), and the [Center for Health Journalism](#).
